

COLOSSIANS

1:15-18

Have you ever had a song stuck in your head? It always seems to be the annoying ones that I get stuck in my head, or Disney.

When we put words to music it helps us to remember them. I grew up going to something called praise parties, they were a mix of Sunday school and a birthday party. We always had a memory verse from the bible set to music, usually by a man called Ishmael. They helped us to remember the verses and my cousins and me used some of them to get through our GCSE's in RE.

The verse we are looking at today was quite likely to have been a song that the church sang together. It's full of truths about Jesus, things that it's important for us to remember. What are some of your favourite songs about God? Do they help you remember truths about God?

ISHMAEL'S SONGS

CHALLENGE

Have a go at writing a song about what you know about Jesus.

If your struggling you could use the words from the verse and make them into a song, or try to fit them to a tune you know.
