

2 THESSALONIANS

CHAPTER 1:1-5

What do you know about Diamonds?

As I learned from watching Big bang theory - where most of my scientific knowledge comes from these days diamonds are made from carbon that has been put under massive pressure for a very long time.

The Thessalonians were a bit like diamonds, they had been going through some hard times but Paul tells them in his second letter to them that when we go through tough times and we are put under pressure our faith grows and we come out the other end stronger.

Thats another thing I've learnt about Diamonds (from another TV show) they are **STRONG**.

To get to be the diamond we have to go through the tough times as well as the good but don't lose faith and remember God is wth you.
