

HEBREWS 11

March 2020 marked a big change in the UK and the effect was great in our household. We got Disney +! Over the last couple of months we've been re-watching the Marvel films and the agents of shield series, which are both full of heroes, and villains but were talking about the heroes today. Each hero has their own story and their own powers that make them special, and they all put their lives on the line for something they believe in.

Hebrews 1 talks about how Jesus is above all things, he gave up his life to save us, he is the ultimate hero. Later in Hebrews 11 it talks about heroes of the faith, people who we can read about in the Old Testament that

lived their lives by what God said. Each of these heroes had faith in God to step out and do things that seemed crazy or impossible, have a look at the stories of some of the people listed and find their stories in the old testament. God is asking people to have faith today and step out into new things, there are countless books of stories where people have answered Gods call.

Do you want to be a hero of faith? God may be calling you to do something that you think is crazy or impossible, all you need is to have faith that God is with you and is able to do the impossible and take that first step of faith.

WHAT IS YOUR ORIGIN STORY?

How did you become a Christian?

Write it down, illustrate it, film it.

Maybe use what you create to tell someone how you came to know Jesus.
