

2 PETER

1:12-21

We rely on eyewitnesses to give us accounts of what's happening in the world. They are on the TV and YouTube every day. Not all of them are as amazing as this one but I'm sure if you spend some time on YouTube you'll be pretty entertained.

When Peter wrote this letter it had been some time since Jesus was around and people were beginning to wonder if Jesus was really God's son. They were impatient for Jesus to return, like he said he would and were questioning if someone had made the whole thing up. In the verses we're looking at today Peter explains that he was an eyewitness to all the things that Jesus said and did which means you can trust what he says about Jesus. Because Peter and the Disciples saw Jesus and everything he did it makes them more sure of the things they read about the prophets (in the OT)

It has now been even longer since Jesus was around and you might find it

difficult to believe he wasn't just a made up character. People still experience God today. You may have had an encounter with God or heard from someone who has and just like Peter says this can make us certain of all the things we read in the Bible.
